

GENERAL LUNA IS OPPOSED TO PEACE

Two Filipino Commissioners Captured

THOUGH A RUMOR REPORT IS GENERALLY BELIEVED.

Received With Equanimity in Official Circles at Washington—War Department Officials Say with Filipinos Divided and Fighting Among Themselves, the Task of the United States Forces Would Be Made Easy—Agoncillo Says Filipinos Are Willing to Accept American Scheme of Government, Providing They Have Entire Control of Finances.

Manila, May 19.—[Special]—It is reported that two Filipino peace commissioners while enroute to Manila, were captured by Gen. Luna, who is bitterly opposed to any overtures for peace.

Gen. Wheaton has been appointed in command of another expedition now forming.

The object of the expedition is not announced.

Gen. Funston has taken command of the brigade in McArthur's division, relieving Gen. Wheaton.

The Thirteenth Minnesota has been withdrawn from the front.

Report Accepted in Washington.

Washington, May 19.—[Special]—Official advice regarding the capture of commissioners sent by Aguinaldo to negotiate for peace with the Americans have not been received here, but the news is generally accepted as true and is received with equanimity in official circles.

The war department officials say that with the Filipinos divided and fighting among themselves, the task of the United States forces would be made easy.

Want Control of Finances.

Paris, May 19.—[Special]—Agoncillo said today that the Filipinos are willing to accept the American scheme of government for the islands. Even conceding the powers of government to an American governor, provided the Filipinos can have the entire control of finances.

Candaba, May 19, by Carrier Pigeon to Manila.—Major Kobbe's brigade took Candaba this morning without opposition.

The natives here are satisfied with American control. They desire a cessation of fighting. One of them said that Aguinaldo would undoubtedly sue for peace through a native peace commission within two days. It is said such a commission is now on its way to Manila. If Aguinaldo refuses to submit to their views, the natives here assert that the Filipino government will repudiate him, as four-fifths of the natives desire peace.

The Americans will positively control the situation if the rainy season does not commence before ten days.

From several sources there comes a story that an overwhelming sentiment for peace exists among the natives. The insurgent leader is said to be in despair and afraid to surrender. There is one force of insurgents about 600 strong southwest of San Fernando, presumably the command of Macaridos. It is the general impression that peace is not far distant. Gen. Otis has signified his intention of receiving the Filipino commission as soon as it reaches Manila.

To Confer Regarding Surrender. Manila, May 19.—Philippine commissioners to confer with the American commission regarding the surrender arrived last night at San Isidro and are coming to Manila today. The people of Manila are confident that the insurrection is ending.

INSURRECTION BELIEVED ENDED.

Officials in Washington Encouraged by Gen. Otis' Dispatches.

Washington, May 19.—Gen. Otis cables the war department that representatives of Aguinaldo are seeking terms of peace and that the forces of the insurgents are scattering in the mountains. Following is Gen. Otis' cable:

"Manila, May 18.—Adjutant-General, Washington: Representative insurgent cabinet and Aguinaldo in mountains twelve miles north of San Isidro, which abandoned 15th inst.; will send in commission to-morrow to seek terms of peace. Majority of force confronting MacArthur at San Fernando has retired to Terlac, tearing up two miles railway; this force has decreased to about 2,500. Moving to parties in various directions. Kobbe with column at Candaba on Rio Grande. Great majority of inhabitants of provinces over which troops have moved anxious for peace, supported by members insurgent cabinet. Aspect of affairs at present favorable. OTIS."

War department officials are firmly convinced that the end of the insurrection in the Philippines is at hand, and that the representatives of the insurgent cabinet and Aguinaldo, who are

to meet Gen. Otis, will succumb to the inevitable and surrender.

Strength of American Forces.

There is no absolute information at the war department concerning the present strength of the American forces under MacArthur, Lawton and Kobbe, which have been operating against the insurgents north of Manila. The number of men, if each organization were up to its maximum strength, would be 16,500, but it is doubtful if their strength totals 11,000 men. MacArthur's troops, except one regiment, are volunteers. All of Kobbe's men are regulars, recently arrived. Three of the six regiments under Lawton also are regulars. There is one radical difference between the volunteer and regular organizations. Losses in the former are permanent, while the gaps in the ranks of the regulars are being constantly filled by new recruits. It is estimated that MacArthur now has about 4,500 men for active service, Lawton about 5,000 and Kobbe 1,500.

Volunteers Soon to Come Home.

War department officials expect that within two months the Pacific transport fleet will be on its way home from Manila with the last of the volunteer regiments. The entire Pacific fleet is now being overhauled and provisioned for the voyage to Manila and return.

EUGENE MITCHELL FLEES FOR CANTON

HIS SUDDEN DISAPPEARANCE CAUSES ALARM.

Drew \$400 From a Bank in This City Before Leaving—Friends Fear He Is Demented—Owns a Farm One Mile North of This City and is Well Known.

Wednesday at noon of last week Eugene Mitchell, of the town of Harmony, left his home on Milton avenue going toward this city.

His wife called to him that dinner was nearly ready, but he was so far away that his answer could not be understood.

Mr. Mitchell not returning in the evening his wife came to this city, but could learn nothing of her husband. The next day inquiry was made at the depot and it was learned that Mitchell had inquired the price of a ticket to his former home in Pennsylvania.

Several letters were sent to relatives in the east, but no trace of the husband was discovered until Tuesday of this week, when Mrs. Clara Beckwith, a daughter, living with her parents, received a letter from her father, stating that he had arrived at the home of a brother, James Mitchell, in Canton, Penn., but he gave no reason for leaving home and gave no indication as to whether or not he would ever return. Before going Mitchell drew all his money, about \$400 from a local bank.

Mr. Mitchell has a fine farm of twenty acres about one mile north of the city and his family consists of his wife and one son, Frank, about sixteen years old, also a daughter, Mrs. Clara Beckwith and her two small children.

Mrs. Mitchell says she is at a loss to know why her husband should have left home, leaving them without means of support.

The fire started in a cupboard between the boiler room and the fuel vault adjoining. The cupboard was consumed, and the surrounding woodwork and steam pipes charred and blackened. The loss will not exceed \$100.

TALK OF EXTENDING CLINTON'S MAINS

MEETING OF VILLAGE BOARD HELD THIS WEEK.

Water Furnished of Excellent Quality and Residents Much Pleased—Creamery During Second Half of April Made 9,770 Pounds of Butter—Personal News.

Clinton, May 19.—At the village board meeting held this week, President Peters and four trustees were present to answer roll call. Bills were audited and nine claims allowed, amounting to \$73.31. The time was principally taken up in discussing the extension of the water works system. The water furnished seems to be of excellent quality, and residents are much pleased. It is almost colorless, has a pleasant taste and is very cold. A large number are already connecting their premises with the mains and will in the future enjoy the blessings of "city" water. The creamery is now publishing semi-monthly statements instead of having them wholly made out by the secretary. During the second half of April, 9,770 pounds of butter were made from 232, 320 pounds of milk and for which \$1,681.58 were received. Average price per one hundred pounds of milk was 62 cents. Average yield 4.21. Price of butter fat 16.4 cents. The total expense of the factory for the period was \$160.40. The camp of Royal Neighbors are to have an ice cream social Thursday evening at the hall. This is the first entertainment given by the local organization. The Y. P. S. H. of the Baptist church meets with Miss Eva Collier next Monday evening. June 2, is the probable date upon which the young ladies will give their much talked of dancing party at the hall.

It is stated upon good authority that Clinton milliners have consolidated. Now if a trust could be formed with Janesville establishments the business here might be made still more satisfactory. Clinton was represented this week on Janesville jury panels by M. M. Murray and V. E. Winegar. Mrs. S. M. Guest visited Delavan recently. Byron Snyder recently purchased one of the latest improved potato planters. The potato industry is certainly on the increase in Rock county. The oldest and most prominent growers are yearly adding to their acreage. Winds sufficiently strong to break over maple trees were experienced here the first of the week. City water will soon be on tap at the Congregational parsonage. Jim McCarthy dug the ditch for the pipe. George Duran is located at Auburn, Neb. He sends word to local friends that he expects to spend the Fourth here. A local paper is authority for the statement that a prominent farmer living near here is going to raise potato planters this season. We happen to know that the seed purchased is good and if the machines don't grow it won't be the farmer's fault. Several from here spent Sunday at Harvard and were present at the dedication of the new M. E. church lately completed at a cost of about \$18,000. A debt of over \$5,000 was nearly wiped out by pledges secured during the morning service. A very large audience was present on the occasion.

Milton, Wis., May 19, 1899.

Road Commissioner Gifford has begun the sidewalk work in his district and we hope he will be able to cover a large amount of territory with the new walk, but in any event the canal should be bridged from the Borden place to the railroad crossing on the west side of the square.

Sayre and Wheeler have been at Johnstown this week with their photograph car.

James Pierce had a stroke of paralysis Wednesday evening as he sat at the supper table. It was not very severe, affecting only one side, and he did not become unconscious, but his age makes a recurrence quite probable.

The Benevolent Society of the Congregational church will hold a social and serve supper at the home of Mr. and Mrs. E. A. Holmes next Thursday evening.

Miss Mary Rumsby has been spending the week in Janesville.

"Weary Willie" is having trouble about the town hall we judge. Don't worry "Willie" the ladies are running that enterprise and are competent to carry it forward to success. "Rome was not built in a day," neither are town halls.

Bond's "Kid" nine played T. I. Place's "Pick Ups" Thursday afternoon and won by a score of 12 to 5. The Bonds put up a good game of ball for players of their age, and with practice will make it interesting for all comers who do not oversize them.

There was a light frost this morning, but not enough to do any damage. The thermometer registered 36.

Robert Downing Monday Night.

People often wonder how an actor can commit to memory and retain a clear knowledge of all the parts they are obliged to learn during their career, and play when called upon, and never be confused. As an illustration of how far an actor can go in this respect, we point to that successful and powerful actor, Mr. Robert Downing, who has probably and until recently had more than fifty plays in his extensive repertoire, including tragedies, classic and romantic plays, comedies, dramas, etc. Varying his program as often as the occasion may warrant, and without any rehearsal or extra study, has gone to the theatre and played whatever part he may have been cast for without any apparent effort whatever. The part of Othello is probably the longest ever written, and to retain this alone, would be a great effort on the part of any ordinary star. Mr. Downing is certainly an extraordinary person, as he is remembered by many as Mary Anderson's leading man, and as such played many parts not in his repertoire; yet he says he remembers every one he ever interpreted, and could play either of them at a moment's notice.

He will appear at Myers Grand, Monday, May 22.

DR. SAMPLE IN THE CHAIR.

Presbyterian Assembly Honors a
New York Divine.

IS CHOSEN FOR MODERATOR.

Impressive Gathering at the First Day's
Meeting at Minneapolis—The McGiffert
Heresy Case—Eloquent Sermon by Dr.
Radcliffe.

Minneapolis, Minn., May 19.—The
Rev. Robert F. Sample, D. D., LL. D.,
pastor of the Westminster church, is
moderator of the one hundred and
eleventh general assembly of the Pres-
byterian church of America. The vote
stood thus: Sample, 338; the Rev.
Robert F. Coyle of Oakland, Cal., 133;
the Rev. Matthias L. Haines of In-
dianapolis, 127.

There are more visitors here than
there were last year at Winona lake.
Many of the commissioners have their
wives and mothers with them. They
are guests of Minneapolis people and
they all come to the services.

Dr. Sample was nominated for mod-
erator Thursday morning by Dr. Wil-
liam McKibben of Lane seminary, Cin-
cinnati, the nomination being seconded
by Dr. Loyal Y. Graham of Philadel-
phia and Dr. John B. Shaw of New
York. Dr. John Carson of Brooklyn
named the Rev. Matthias L. Haines for
moderator and what he said was sec-
onded by the Rev. Douglas Putnam.
Dr. John W. Dismore nominated the
Rev. Robert F. Coyle.

Dr. McGiffert and his "Apostolic
Age" cannot be forgotten by some of
the commissioners, although the ma-
jority of them are weary of heresy talk
and believe that no conditions warrant
an outbreak. The stated clerk, William
Henry Robert, has a letter from Dr.
McGiffert of the Union Theological
seminary which he is carrying in his
pocket. This letter will be read in
case the matter is brought to the bills
and overtures committee by some of
the threatening presbyteries. Dr. Mc-
Giffert will explain that he prepared a
historical work when he wrote his
widely discussed book and that he was
not dealing with theology in it. There
can, however, be heard a whisper now
and then about McGiffert's withdraw-
ing altogether from the Presbyterian
church; that he is gratified with Dr.
Briggs' recent so-called triumph, and
that he may act similarly.

The sermon of Dr. Radcliffe, retir-
ing moderator, was a most eloquent
discourse. He urged the assembled
ministers to turn to the Bible and stick
to it. In all he said there was not a
harsh note, there was not a shadow of
modern criticism. He took up the
"newly acquired notions." He said:

"If we daily, another will dominate.
If we evade, the scepter will fall from
us. Patriotism is not provincialism,
either in church or state. We will make
Presbyterians if we can. If Presbyte-
rianism is not suitable to the Philip-
pines, it is not suitable to America. If
it does not belong everywhere, it does
not belong anywhere. If it is not adapt-
ed to all climes, it is not adapted to
any clime. It is not a narrow or pro-
vincial or local idea, but broad, catho-
lic, comprehensive. But if we are not
to carry Presbyterism, we must carry
some Christianity thither, not a
mongrel thing, not a false promise, but
a Christianity which works by love,
which purifies the heart, which over-
comes the world."

In the morning seven Presbyterian
women's foreign missionary boards
held a conference at Wesley church.
The boards asked questions of one
another touching upon these points:
The expenses of officers and missiona-
ries in making visitations to promote
the work; systematic courses of study;
the relations of the Sunday school to
missionary work; the responsibility of
the boards toward the student volun-
teer movement and the summer cam-
paigns; the relative duties of synod-
ical Presbyterian and local young peo-
ple's secretaries; missionary libraries,
and the financial question. Visitation
expenses, it was agreed, should be paid.

The adjournment hour of the assem-
bly was postponed long enough to draw
up greetings to be sent by the mod-
erator to the international peace con-
ference.

The reports on the organized work
of the church will be presented as fol-
lows: Ministerial relief, Saturday;
freedmen, Monday; education, Mon-
day; home missions, Tuesday; aid for
colleges and academies, Tuesday; for-
eign missions, Wednesday; publication
and Sunday school work, Wednesday;
church erection, Thursday; benevo-
lence, Thursday; temperance, Friday.

HARRISON IN INDIANA.

Mayor of Chicago Talks to Democratic
Editors.

Madison, Ind., May 19.—One of the
largest meetings held by the society
in years is being held in this city by
the Indiana Democratic Editorial asso-
ciation.

A large number of men of national
reputation are in attendance, promi-
nent among them being Mayor Carter
Harrison of Chicago and Judge J. P.
Tarvin, president of the League of Bi-
metallic Clubs of the Ohio Valley.

At a reception at the Grand opera
house in this city Thursday night
Mayor Harrison and Judge Tarvin ad-
dressed the editors and citizens of
Madison.

In speaking of democracy Mayor
Harrison said that personally the Chi-
cago platform of 1896 just suited him,
and he believed that the democrats in
1900 could do no better than adopt it.
He denounced the trusts, and said that
in addition to the Chicago plank a
clause should be inserted in the next
platform concerning the enactment of
laws to prevent the forming of trusts.

Mayor Harrison closed his speech with
an eulogy of William J. Bryan, "our
next leader."

Judge Tarvin's talk was along the
same line. He said the Chicago plat-
form, without a word or comma omit-
ted, he believed would prove a win-
ner in 1900. He spoke against imperi-
alism, denounced the trusts, and de-
clared in favor of W. J. Bryan for the
democratic nominee for president in
1900.

Judge Tarvin is here to interest the
editors in the convention of the League
of Bimetallic Clubs of the Ohio Valley,
which will meet in Louisville in June.
The editors were driven to Hanover
college, six miles west, in the after-
noon, where speeches were made by
Mayor Harrison and Editor Morris of
the Indianapolis Sentinel.

have been placed along the railroad.
A detachment of troops was recently
sent to the frontier of Costa Rica.

Worsted Yarn Trust.
Philadelphia, May 19.—The worsted
yarn trust, to be known as the United
States Worsted Yarn company, with a
capital of \$50,000,000, is practically an
assured fact, and all that remains to
be done is the matter of formal organiza-
tion. Nineteen worsted yarn spinners
in the country, including the largest spinners
in the country, have agreed to enter the
trust.

Machine Miners Fix a Scale.
Brazil, Ind., May 19.—The mass
meeting of machine miners, held here
Thursday, voted to accept the opera-
tors' offer of \$2.25 for machine runners,
\$2 for helpers and 38 cents for loaders.
The machine mines will be opened in a
few days and the 700 miners returned
to work. The miners claim they
achieved quite a victory in the settle-
ment.

[LETTER TO MRS. PINKHAM NO. 29,621]

"Two years ago I was a great
sufferer from womb trouble and pro-
fuse flowing each month, and tumors
would form in the womb. I had four
tumors in two years. I went through
treatment with doctors, but they did
me no good, and I thought I would
have to resort to morphine."

"The doctor said that all that could
help me was to have an operation and
have the womb removed, but I had
heard of Mrs. Pinkham's medicine and
decided to try it, and wrote for her
advice, and after taking her Vegetable
Compound the tumors were expelled
and I began to get stronger right
along, and am as well as ever before.
Can truly say that I would never had
gotten well had it not been for Lydia E.
Pinkham's Compound."—MARY A.
STAHL, WATSON TOWN, PA.

What Mrs. Pinkham's Letter Did.

"DEAR MRS. PINKHAM—After follow-
ing the directions given in your kind
letter for the treatment of leucorrhoea,

them to my friends."

"Thanking you for your kindness, I
am gratefully yours, A. B. DAVIS,

THIS DAY IN HISTORY.

1586—Queen Anne Boleyn beheaded in the Tower green; birth date unknown.
1780—"Dark day" in New England; darkness commenced at 11 a. m. and covered the country from New York city to Maine; in Massachusetts and portions of New Hampshire artificial lights were required.
1790—General Israel Putnam, Revolutionary soldier, died in Brooklyn, Conn., June 17.
1843—Sir John Franklin sailed from England in search of a northwest passage through the Arctic ocean. From this trip Franklin never returned. Relics and remains of the expedition have been found by searching parties, the last principal discovery having been made by Lieutenant Schwatka in 1893-94. Schwatka found and buried the remains of a number of Franklin's people and did much to clear up the mystery of the fate of Franklin and his officers and crew.
1806—Hiram Barney, collector of the port of New York under President Lincoln, died; born 1811.
1890—Kate Field, lecturer and journalist, died at Honolulu; born 1840.
1898—Gladstone died at Castle Haverden; born 1809.

WHY DO THEY FIGHT?

To the uninitiated person it may seem queer that it is necessary to smash a lot of cars and commandments in order that two railway companies might come to an understanding regarding a crossing. After all the noise is made, and all the destruction wrought, the case goes to the courts, and is settled. This being the rule, why is it necessary to have a clash such as that of last Sunday? If the court can decide the matter after the row, why could it not settle it before a collision occurred? Is it necessary to smash things in order to give the court jurisdiction?

It does not appear that there is any reason whatever for the destruction of property and the blocking of streets, but railway companies always have just such a fight before a crossing is put in, although the court invariably has to arbitrate the trouble in the end. Whether or not the custom is born of necessity, or is simply the observance of an old tradition is not explained. In the meantime, however, most people will think that such scrimmages are a useless waste of money and muscle, and not in accordance with common sense.

The salary of the Assistant Secretary of State at Washington, of the Assistant Secretaries of the Treasury (there are three), of the Assistant Secretary of War, of the Assistant Secretary of the Navy, and of the Assistant Secretary of Agriculture are \$4,500. The salaries of the Assistant Postmaster-Generals (there are three), is \$4,000. The Director of the Geological Survey of the Interior Department gets \$5,000; the Commissioner of Education in the same department gets \$3,000.

The various United States mints turned out \$14,000,000 in new coin during March, the exact total being \$14,572,073.01, the largest coinage for many months. The greater part of this was in gold, \$9,556,260 being in double eagles, \$2,105,120 in half eagles and \$515,240 in single eagles.

Appleton's common council voted to build a city hall, but the contest as to the site has become so hot that the project is likely to be abandoned. This is not as it should be. The people of a city should pull together, not against each other.

The wily French journalists seems to have the faculty of keeping a "good story" alive for a long time. The Dreyfus affair has furnished the newspapers with more "scent heads" than any other happening of recent years.

Oconomowoc people are strongly in favor of buying the water works and electric light plants in that city, the sentiment in favor of municipal ownership having been greatly strengthened of late.

"Our crossing is close to the river" remarked one railway to the other, "so when you are passing that way, drop in." And then the case got into court.

Senator Quarles' Milwaukee speech had the right ring. The senator wore Uncle Sam's blue some years ago, and his patriotism is not of the frothy kind.

Now that the railroad war is over, the row in the Philippines will again attract some attention.

Empress Dowager of China.
The empress dowager of China is described by a European lady as a remarkable person. She is an ardent painter and her pictures fine specimens of Chinese art. She is well read, is fond of European music, and has some skill as a pianist. Strange as it may seem, her majesty is fond of wrestling, and frequently indulges in this rough exercise. Finally, she is absolutely without fear, although her life has been at tempted a dozen times. No wonder such a woman can rule in place of the real emperor.

WORK COMMENCES ON COUNTY JAIL

PAULY JAIL COMPANY SHIP IRON MATERIAL

Contractor Peters Has the Excavation Already Made and the Work Will Be Rushed to Completion—Water Is Found at Six Foot Depth—Iron Arrives.

Rock county's new \$25,000 bastille is now in course of erection. Contractor John Peters, of this city, who has the contract, has a large force of men on hand and the work of excavating for the foundation is now well under way. The laying of stone has commenced. The work will be rushed through to completion by a large force of men. The Pauly Jail Building company, of St. Louis, who were awarded the contract, have shipped a portion of the iron and steel material here and it is now stored on the jail property. As soon as the building allows the erection of steel cells and other steel work, the Pauly company will have a force of experienced men here to carry out the work.

E. J. Rathem, of this city, has been appointed by the county board to look after the interests of the county in the erection of the bastille.

The new jail when finished will be most complete. For a prisoner to make his escape after once inside the steel cages will be almost impossible as even the steel itself will be drill proof.

The sanitary arrangement will be the best and to the river will be constructed a special sewer. The sheriff's residence that will front the jail will not be lacking for the most modern improvements.

The bastille itself when completed will resemble more a handsome private home than a place for the imprisonment of criminals.

Contractor Peters says that the entire structure will be completed before cold weather sets in.

The Dentifrice

In selecting a Dentifrice, avoid all preparations which are advertised for whitening the teeth, as to do that they must contain an acid, which will in time destroy the enamel. All that any good dentifrice can do is to keep the teeth clean. Liquid preparations are ineffectual, because in order to keep the teeth clean it is necessary to have the friction of a powder. The American Dental Association at its meeting in Boston, condemned the use of mouth washes in any form. The ideal dentifrice should be a powder which is entirely free from acid and sharp, gritty substances, such as charcoal, cattle bone, pumice stone and silic, all of which are too harsh and cutting to the enamel to be in daily use.

"The Prentice Tooth Powder"

Is prepared from select material and the ingredients are harmless, simple and effective. It is endorsed by the highest dental authorities as the ideal dentifrice

RAILROADS HAVE ANOTHER SQUABBLE

LACK CONFIDENCE IN EACH
OTHER.

Northwestern's Attempt to Reach the
Blodgett Mill Causes Another
Wrangle This Afternoon—Two
Hundred Workmen on the Scene—
Three Engines Block the Way.

Lack of confidence in each other in-
duced forces on the Chicago & North
western and the Chicago, Milwaukee &
St. Paul railroads to clash on North
River street this afternoon.

In spite of the fact that the officials
of the two railroads met in consultation
in City Attorney Burpee's office on
Tuesday and agreed not to molest each
other on North River street in the
matter of track crossing connections,
trouble broke out afresh this afternoon
in the disputed territory near Wall street.
At one o'clock, a hundred men sud-
denly appeared on River street and in
behalf of the Northwestern road at once
set in laying track to the Blodgett
flouring mill.

In behalf of the Milwaukee road an
equally large number of section hands
appeared to protect the Milwaukee road's
right. The report spread through the
city that another fight was on and soon
a hundred spectators were on the scene.
Superintendent T. A. Lawson, At-
torney E. M. Hyzer and Division Super-
intendent Moulton were on hand
in behalf of the Northwestern, while
Attorney A. A. Jackson and Agent Hin-
rich were there to look after the inter-
ests of the Milwaukee road.

Soon three engines appeared on the
scene on the Milwaukee road and they
soon blocked that portion of River
street where the Northwestern track was
supposed to cross the Milwaukee track.
Engineer Charles Rogers, William Doe
and Otto Schieker were in charge of the
locomotives and Conductor John Calla-
han looked after the tracks. The engine
then pulled up and at 2 o'clock the one
hundred men on the Northwestern road
lifted fifty feet of spiked rail and carried
it over the Milwaukee track placing it
on the east side.

A mighty shout went up from the
Northwestern section men as though
they had won a victory.

Attorney A. A. Jackson of the Mil-
waukee road could not see it that way
and said: "We are not trying to pre-
vent the Northwestern men from laying
track where they have a perfect right to.
What we object to is to their laying
rails across our track without the mat-
ter having first been settled either by
an agreement or in the courts as was
specified at the special meeting of offi-
cials held here Tuesday. If they do not
intend to live up to the agreement we
are here to interfere."

Assistant Superintendent Moulton, of
the Northwestern, said:

"We have been asked to lay a track
to the Blodgett mill and that is what
we are now doing. We don't intend to
break any agreement made and have
not attempted a track connection over
the Milwaukee track. We have agreed
not to molest them and do not intend
to."

In the Rock county circuit court this
morning the hearing of the order in the
case of the Chicago & Northwestern and
the Chicago, Milwaukee & St. Paul
railroads was again postponed on ac-
count of the non-appearance of General
Solicitor Hanson, of the Milwaukee
road.

CALDO FINED FIFTY DOLLARS

Took an Appeal to the Circuit Court of
Rock County.

In the municipal court this morning
was tried the assault and battery action
of the state of Wisconsin vs. James E.
Caldo.

Alex. Hayes, the complaining witness,
resides in the town of Johnstown, also
the defendant.

Hayes alleges that he was assaulted
by Caldo on May 6.

The court this morning found the
defendant guilty and fined him \$50 and
costs or a total of \$74.68 or four months
in jail.

An appeal to the circuit court was
taken and the defendant was released
on \$100 bonds.

BRICK MAKER VISITS HERE

Gentleman From Illinois Looks Over
City Beds.

C. T. Willard, of Galesburg, Ill., was
in Janesville yesterday looking over the
city and inspecting the clay on the land
of O. L. DeForest, of this city. Mr.
Willard says that "brick is the only
paying material, and that in many
places where cedar blocks have been
used they are being replaced with brick."

The gentleman would like to invest
some capital here in the brick making
business provided a company could be
formed. He would put in the cash the
same as the rest of the stockholders.
Mr. Willard is a thorough business
man and is of the opinion that a plant
of this kind could be made a profitable
investment.

HESS TAKEN FROM PRISON TO TESTIFY

SWORE MURPHY CUT TRAMP'S
THROAT.

On the Stand at Portage Yesterday
Jack Hess Proved a Most Important
Witness—Tramps on Trial For
Murder Committed Last September
In Railroad Yards.

Jack Hess, who was sentenced re-
cently by Judge Bennett, of the Rock
county circuit court, to one year in
Waupun for burglarizing freight cars in
1897, near Beloit, and who afterwards
made his escape from the Rock county
jail, was yesterday taken from the state
prison at Waupun to Portage to testify
in a murder trial.

While in Portage last September with
a gang of tramps, a fight ensued on
September 25 and the result was two of
the hoboes were alleged to have been
murdered by members of their own
gang.

Several arrests were made and among
those taken into custody were Hess and
a hobo named Henry Hayes.

Hess was released several weeks ago
for the lack of evidence but Hayes is
now on trial for murder.

When the case was called yesterday
Hess was the most important witness
for the state.

His testimony did not tend to show
that Hayes was in any way responsible
for the murder of either man.

The testimony in the case was closed
at 4 o'clock yesterday afternoon. The
attorneys made their pleas last evening,
and the case was given to the jury this
morning. Hess swore that the mur-
dered man, Murphy, cut the throat of
the man found dead in the woods.

Hayes appeared in court neatly
dressed. A jury was obtained in less
than two hours. Hess was taken back
to prison today.

FIRE DESTROYED TRIPP BARN

Rock County Farmer Again Visited By
Serious Fire

Fire on the William Tripp farm east

and those present then devoted their
time to saving the contents.

Last year Mr. Tripp suffered a heavy
loss by fire in the destroying of one of
his barns.

ANNA BROWN DEFEATED

Jury Found That Mrs. Wood Was in the
Right.

This afternoon in the case of Mrs.
Anna J. Brown vs. Mrs. Katherine
Wood, the jury returned a verdict in
favor of the defendant.

They found that Mrs. Wood had ful-
filled all conditions of agreement with
the plaintiff and that she gave said
plaintiff at different times the sum of
\$300.

Mrs. Brown on September 16, 1898,
deeded her home on Kingold street in
this city to Mrs. Wood with the under-
standing that the daughter was to care
for her the remaining days of her life.

Mrs. Brown brought suit this week
to again get possession of her home,
alleging that her daughter had not
lived up to the agreement.

Mahoney & Ryan appear for the
plaintiff and Sutherland & Nolan for the
defendant.

Another New Element.

Three French chemists—M. and
Mme. Curie and M. Bémont—have dis-
covered a new metallic element, which
they call "radium," because of its re-
markable property of emitting rays
which resemble in their penetrative
power Prof. Roentgen's celebrated X
rays. Not long ago much surprise was
caused by the discovery that uranium
is capable of emitting similar rays, but
the power of radium in this respect is
said to be 900 times greater than that
of uranium.

F. S. Baines Disposes of 280 Cases and
Conrad Brothers too—Cold Weather
Has Retarded the Growth of Small
Plants—Other Local Leaf Tobacco
Notes.

Several cold days since our last re-
port have had the effect of retarding the
growth of the young plants. Still many
of the beds show a very promising lot
of plants and all that is needed now is
plenty of warm weather, as the soil is
now full of moisture and will remain so
for some time, says this week's issue of
Farm and Home.

The recent hard rains washed out
some plants on slanting beds, but no
great damage was done.

There seems to be an abundance of
plants, and a very large acreage is
looking for, if nothing harmful occurs
during the next few weeks.

In case goods business continues ac-
tive and several good sized lots have
changed hands.

F. S. Baines sold 280 cases of old goods
and Conrad Bros. sold 100 cases of old shorts,
the last of their holdings of '97 tobacco.
O. C. Lee of Stoughton, sold 516 cases of

Wednesday, after a long and busy pack-
ing season. Mr. Carle has considerable
faith in the '98 and thinks it will go

IT CAN'T BE DONE.

No One Can Remain Well. No Chronic Disease Can Be Cured Unless the Stomach is First Made Strong and Vigorous.

This is plain because every organ in the body depends on the stomach for its nourishment. Nerve, bone, sinew, blood are made from the food which the stomach converts to our use.

How useless to treat disease with this, that and the other remedy and neglect the most important of all, the stomach.

The earliest symptoms of indigestion are sour risings, bad taste in the mouth, gas in stomach and bowels, palpitation, all-gone feeling, faintness, headaches, constipation; later comes loss of flesh, consumption, liver and heart troubles, kidney diseases, nervous prostration, all of which are the indirect result of poor nutrition.

Any person suffering from indigestion should make it a practice to take after each meal one of Stuart's Dyspepsia Tablets, allowing it to dissolve in the mouth and thus mingle with the saliva and enter the stomach in the most natural way. These tablets are highly recommended by Dr. Jennison because they are composed of the natural digestive acids and fruit essences which assist the stomach in digesting all wholesome food before it has time to ferment and sour. Stuart's Dyspepsia Tablets are sold druggists, full sized packages at 50 cents. They are also excellent for invalids and children. A book on stomach diseases and thousands of testimonials of genuine cures sent free by addressing F. A. Stuart Co., Marshall, Mich.

GEN. GOMEZ ADVISES CUBANS

In a Manifesto He Urges Peace and Work.

CONFIDENCE IN AMERICA.

Insurgent Leader Shows Himself in Harmony with the Aims of the United States—Secretary Alger Said to Be Displeased with Brooke.

Havana, May 19.—The manifesto of Gen. Maximo Gomez was issued Thursday. It is a document of 4,000 words, and goes fully into the motives actuating him in the negotiations with Gov. Gen. Brooke for the disbandment of the Cuban army. It is dignified in tone, and loyal to the very last to Gomez' ideal of an independent Cuban republic, while at the same time it is entirely in harmony with the avowed aims of the United States in reference to the island.

Gen. Gomez' voice is for peace and work. He appeals for a cessation of agitation and friction, holding before the Cuban people the highest hope for a resurrected country and the warmest faith in the honesty of the American government.

SURPRISE AT BROOKE'S ACTION.

Opinion at Washington That He Has Disregarded Orders.

New York, May 19.—A special to the World from Washington says: "Gen. Brooke was instructed by the president to insist that the arms of the Cubans be turned over to officers of the United States army. Instead, Gen. Brooke agreed with Gen. Gomez that the arms should be surrendered to the mayors of the Cuban cities. Gen. Corbin has gone to Hot Springs to learn from the president whether or not he will insist upon his original order to Gen. Brooke being carried out."

"Officials of the war department regard Gen. Brooke's disregard of the president's implicit instructions as a moral victory for Gen. Gomez and the dissatisfied Cubans. Secretary Alger is highly indignant over Gen. Brooke's surprising disregard of the president's strict orders. He telegraphed to the president full details."

It is generally conceded that these developments in Cuba will greatly delay the distribution of the \$3,000,000 to the Cuban army."

High Altitudes and Health.

Scientific journals are bestowing great praise upon a book by Prof. A. L. Herrera of Mexico, which recently won the Hodgkins prize of the Smithsonian Institution. Prof. Herrera treats of the effects of high altitudes on life, particularly as illustrated by the valley of Mexico, whose elevation is 7,350 feet above sea level. He upsets some old notions, and shows that residence at a high altitude and "baths of rarefied air" conduce to health and longevity, especially in the case of tuberculosis.

Are . You . Satisfied : WITH YOUR : Teas and Coffees ?

Do you always get the same quality each time you order from your trading place? We are pleasing a great many tea and coffee drinkers—enjoying a very large trade in this department. We make it a special feature of our business, and buy in such large quantities that we can give better values for the same money than other dealers. The war revenue tax sent tea prices up 10c pound, so that the tea you bought a year ago at 35c now sells at 45c per lb.

We have the best Uncolored Japan Tea that money can buy—wholesale dealers say we buy the best stock of any concern in the city. Comes in 35, 40, 45, 50 and 60c per lb. grades.

Young Hyson Teas at 50 and 60c per lb. are superb. Gunpowder, a favorite with particular people, at 35c, 50c and \$1.00 per lb.

Tea Dust at 25c per lb.

Our 50 and 60c grades of Tea are particularly fine. People tell us they are better than any at the price they ever used.

Richelieu Coffee, the cream of the coffee plantation, nothing can be grown under the sun any better; comes in 75c 2-lb. air tight cans.

Diamond Java and Mocha, a fine article, 35c for 1-lb. tin and 70c 2-lb. tin for.

Square brand Java and Mocha in 30c air tight tins, per lb.

National Blend, in leatherette paper, making it as nearly air tight as possible. We never sold it for less than 30c per lb., but have made arrangements whereby we can reach the people with a taste for high quality Coffee but with an economical purse, and are selling it for 20c
